

The artistic ensemble is rounded out by two curved outbuildings. The palace was the summer residence of Prince-Elector Carl Theodor. On the second floor, visitors can view many treasures, including Frankenthal porcelain. Authentically furnished rooms with hand-printed wallpaper, designed for Countess Luise Karoline von Hochberg, are located on the third floor.

In line with the contemporary ideal of royal households as artistic centers, countless concerts were held at the palace-a tradition that lives on today in the form of the Schwetzingen Festival and the Schwetzingen Mozartfest.

HOW TO FIND US

GETTING THERE

Schwetzingen Palace and Gardens is approximately a 10 minute walk from Schwetzingen train station.

INFORMATION ABOUT ALL OF OUR MONUMENTS

EXTRAORDINARY GARDENS OF EUROPEAN RENOWN

SCHWETZINGEN PALACE AND GARDENS

one-of-a-kind circular parterre, is the centerpiece of the palace

THE SUMMER RESIDENCE OF PRINCE-ELECTORS OF THE PALATINATE

The lush splendor of cherry and apple blossoms in spring, the rich green foliage and lively borders of flowers, the colorful leaves in autumn, or a quiet wintry hush-the Schwetzingen Palace Gardens offer visitors a wonderfully unique atmosphere in every season. It is an 18th-century masterpiece of garden design, presenting geometrically precise representative elements of the French style alongside the free landscape style seen in English gardens. Buildings, such as the Temple of Minerva or the Woodland Temple, as well as the array of sculptures in the gardens, all serve to highlight its unique character.

C chwetzingen Palace (Schloss Schwetzingen) is famous for its beautiful and harmonious gardens. Remarkably, the original design, in all its diversity, survives to this day.

The origins of Schwetzingen Palace date back to 1350, when a knight's small moated castle occupied the site. After an eventful history, Schwetzingen flourished under Prince-Elector Carl Theodor von der Pfalz (1724-1799). The palace owes its current form to Prince-Elector Johann Wilhelm, who commissioned changes in 1697 and expanded it considerably by adding two side wings.

A SYNTHESIS OF THE MOST PROMINENT ARTISTS

Schwetzingen Palace reached the height of splendor under Prince-Elector Carl Theodor. He instructed leading landscape architects of the time to design his grounds, among them Nicolas de Pigage and later Friedrich Ludwig von Sckell. They began construction the large-scale project in 1749 and, supported by the most prominent artists, created an exceptionally beautiful artistic synthesis and variety. The central gardens boasts curved structures,

 ★ The Temple of Mercury is the newest building in the gardens; its architectural style was inspired by Roman tombs

pergola arcades, and a circular parterre and follows clear mathematical patterns in an entirely symmetrical and consistent pattern. At the end of the 18th century, landscaped sections were added to the Baroque garden, creating the "Arborium Theodoricum", one of the earliest examples of the English landscape garden in Germany.

MAGNIFICENT BAROOUE BLOOM AND STRANGE WORLDS

Schwetzingen's palace garden is a cultural monument of European distinction, featuring well over 100 sculptures within its wonderful and surprising grounds. Picturesque structures lure visitors into strange and distant lands. The "Temple of Apollo", a small, round building, houses a statue of the ancient Greek god of light and the arts, playing the lyre. The bath house is also worth a visit: a private haven in an elegant garden, and built like an Italian villa. And, most spectacularly the park's "Turkish Garden" boasts a mosque designed by Nicolas de Pigage, the only structure of its kind in a German garden. Ornamented with oriental details, the late-Baroque building was purely decorative and served no religious purpose.

[™] View from the Arion Fountain to the central building: The core of the palace was originally a knights' moated castle

A CULTURAL HIGHLIGHT

The palace rooms are furnished with pieces from the 18th and early 19th centuries. One spectacular feature in the palace is the prince-electors' court theater in the northern curved outbuilding. This "Rococo Theater" is still used for performances to this day. *It* is the oldest surviving gallery theater in Europe.
